Amazing events at the resorts all winter long ramp up the excitement factor! But why limit your fun? A SASSARINI HOME—Built circa 1895 by the Sassarini family, this home was later purchased by the McGwinn family on July 15, 1918 for 10 dollars in gold coin. Doyle McGwinn grew up to be the town butcher for many years.

B TITUS HOME—This home was constructed circa 1912 on a spot previously occupied by a Chinese boarding house. It was the only architecturally-designed home in Brickelltown, designed by Will Bliss. Frank Titus, Sr. built this home while working as an engineer on the narrow gauge railroad, which hauled lumber from Lake Tahoe to Truckee.

EATON HOMES—Originally built by Edward Brickell circa 1880 and then served as the Truckee Lumber Company store. Harry Eaton, Brickell's son-in-law, was a longtime railroad engineer. His son Harry grew up in this home and in the 1930s he was known to ski to Tahoe City to deliver the mail when trains were snowbound in Truckee.

THE KRUGER C.B. WHITE HOUSE—Placed in the National Register of Historic Places, it was built in 1873 by W.H. Kruger, an original owner of the Truckee Lumber Company. In 1904, C.B. White, a banker and prominent citizen, bought the house.

ROCKING STONE—Although the 17-ton stone no longer rocks, it is one of the 25 known rocking stones in the world. The local Native

Americans used this rock for drying their food and holding ceremonies as far back as 15,000 years ago. One of the early tribes painstakingly chipped away the rock to flatten the top and curve the bottom so animals couldn't climb up and eat their food.

THE LOADING DOCK—Once a loading dock and freight station for the Southern Railroad, this building served as a warehouse for years. Much of Truckee's lumber and ice were shipped from here.

G TRUCKEE'S OLD JAIL—Built in 1875 out of native stone, the brick was added in 1901. This is one of the West's oldest jails in continuous use until 1964. Open on summer weekends.

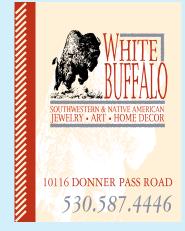

FIRST AND LAST CHANCE SALOON—It was the last saloon heading west and the first heading east. This building was once Truckee's original telephone office.

SIERRA TAVERN BUILDING—Built as a three story building in 1928. A fourth floor was added in 1938. This was once the location of the law office of Truckee's famous citizen Charles McGlashan who wrote the history of the Donner Party.

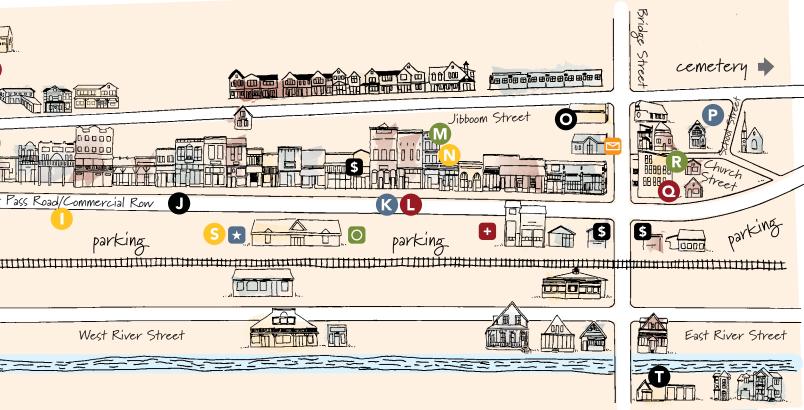

CABONA'S—Founded in 1918, Cabona's is the oldest retail establishment on Commercial Row. Its founder Dave Cabona originally sold fishing tackle, appliances and general

merchandise. The eastern part of the store was a coffee shop. The coffee cup is still embedded in the sidewalk.

THE CAPITOL—Built in 1872 by William Hurd. It was originally "Hurd's Saloon and Hall." It was used by Piper Opera Company and then for the County Court.

I.O.O.F. HALL—This building was built in 1871 and is the oldest building on the block. The Rebekah officials from New York had been in San Francisco to organize a lodge there. On their return trip to New York they became snowbound and stayed in Truckee for four days. They asked the local ladies if they would like to have a lodge and the second Rebekah Lodge in California was established.

REX HOTEL BUILDING —Built over 100 years ago, this building was converted to a hotel with steam-heated rooms in 1913. During prohibition, the lower floor was a speakeasy called the "Silver Mirror."

TRUCKEE'S FIRST BANK—This bank was operated by Frank Burckhalter. In 1869, a daring bank robbery attempt was thwarted by the heroic action of bank employees and town citizens.

STONE GARAGE—This building is on the location of Truckee's first building: Gray's Station. The current stone building was constructed around 1911 and served as a carriage house and blacksmith shop.

P GRAY'S LOG WAYSTATION—Truckee's oldest building (1863). In 1909, the cabin was given to the Native Sons of the Golden West, Donner Parlor No. 162, who moved it to its present location.

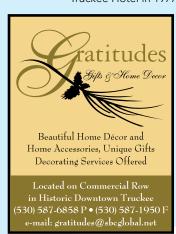

THE TRUCKEE HOTEL—Built in 1873, this structure was known as the Whitney House before the 1900s. In 1909, the structure burned to the ground and was rebuilt in the same spot. The hotel was renovated and reopened as the Truckee Hotel in 1977.

THE SCHAFFER HOUSE—Built in 1895 by George Schaffer, the founder of Truckee's first lumber mill, Schaffer Mill. The original Italianate detailing is still evident on the porch.

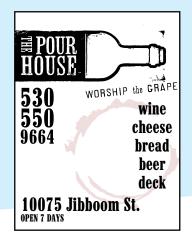

THE DEPOT—The depot was built in 1900. A plaque, located on the large stone outside the depot, commemorates the first transcontinental railroad line. The line reached Truckee on April 3,1868. A refurbished exSouthern Pacific caboose next to The Depot now houses the Truckee Railroad Museum.

CHINESE HERB SHOP—Built in 1878, it was the cornerstone of Truckee's Chinatown which was the second largest Chinese community on the west coast. It was also the home of the Donner Soda Label, part of the Truckee Soda Works.

TOP 10 Activities for Summer

1 DONNER LAKE There's no better place to be in the good 'ole summertime! Boat, water ski, wakeboard, windsurf, kayak, paddleboard...whew! Jump out of the crisp, clear water and soak up the sun on one of the warm public piers along the shoreline. Take in the dramatic views of Donner Summit, blue sky, green pines...and relax.

2 HIKING There are endless miles of gorgeous Sierra Nevada trails and wilderness right out your back door in Truckee. Wildflowers, sagebrush, meadows, pine forests, wildlife, creeks and mountain lakes, take it all in with spectacular views and mountain top vistas.

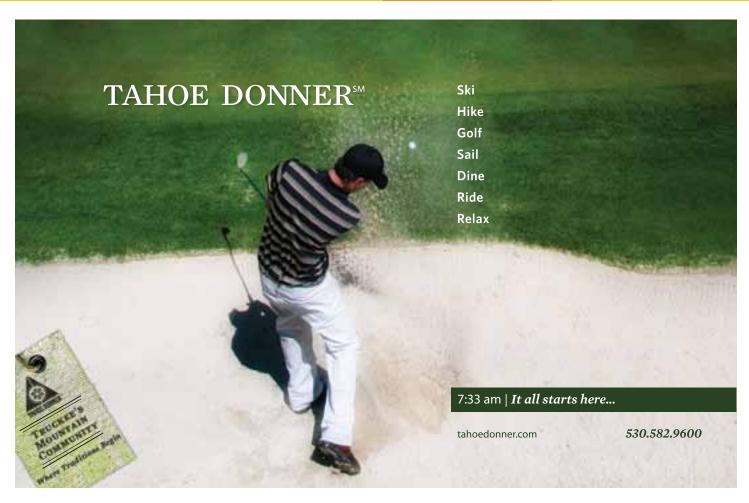

BIKING The Truckee area offers some of the best mountain biking in the world. From trails offering mellow rolling single-track, to steeper climbs with technical sections, mountain bikers will find rides that are both fun and challenging with stellar views and scenery. Road bike warriors have several "cardio climbs" to choose from, or get into the rhythm of a long, endurance ride.

GOLF Truckee has some of the finest mountain golf experiences in the country. Towering pines, meandering creeks, granite rock outcroppings, wildflowers and vistas – combine that with fresh mountain air and you have near perfection.

5 DISC GOLF Looking for something new? Try your hand at disc golf (frisbee golf) at the 18-hole course located at the Truckee Regional Park, along the banks of the Truckee River. Hear the "ching" of the disc crashing the chains of the target while you travel this moderate hilly and wooded course. And the view ain't bad either!

RIVER RAFTING Whether it's a gentle float or an exciting whitewater rafting trip you're looking for, the Truckee River has it all. For a mellow journey, starting in Tahoe City, the river rambles down towards Alpine Meadows, hitting a few rapids, and passing several deep water pools for a swim. Looking for more? We got it! Take a 7 mile

guided whitewater adventure, with many Class 2–3 rapids the first 6 miles, and exciting Class 3+ rapids in the last mile. Several concessionaires offer raft rentals for the float, or rafting outfitters provide the guided river adventure.

FARMERS' MARKET Good and clean, locally grown produce can be found every Tuesday morning at the Truckee River Regional Park. California certified farm-fresh fruits, vegetables, flowers, nuts, honey, eggs and fresh flowers. Nothing better than local bounty to tempt you with the flavorful tastes of summer.

8 WEDNESDAY NIGHT MUSIC IN THE PARK Starting June 16th, the Truckee River Regional Park is the place to spend summer evenings in Truckee. A free

event, the grassy amphitheater is transformed into a sea of lawn chairs, blankets and picnic baskets. Children play, adults socialize, and before the evening ends, the music conquers the crowd and everyone is up dancing – moving and grooving to the sounds of summer. Concerts start at 6:30 pm and typically wrap up around 8 pm.

It is the largest alpine lake in North America, and the second deepest in the U.S. with a depth of 1,645 ft. Measuring 22 miles long and 12 miles wide, its shoreline circumference is 72 miles. unique gifts, fashion and treasures to take home. Take in lunch or dinner at one of the many popular restaurants, from hip and trendy, to rustic and funky.
